

LOSS PREVENTION

Boston Group Security Systems for retailers provide several features and benefits that enhance safety, deter crime, and protect assets.

Retail theft is a major problem for businesses of all sizes. According to a July 2024 report from the Council on Criminal Justice (CCJ), shoplifting increased 24% in the first half of the year in 23 cities, even while other types of crime decreased. In response to these challenges, retailers are turning to anti-theft technology, such as merchandise display solutions without significantly compromising the customer experience.

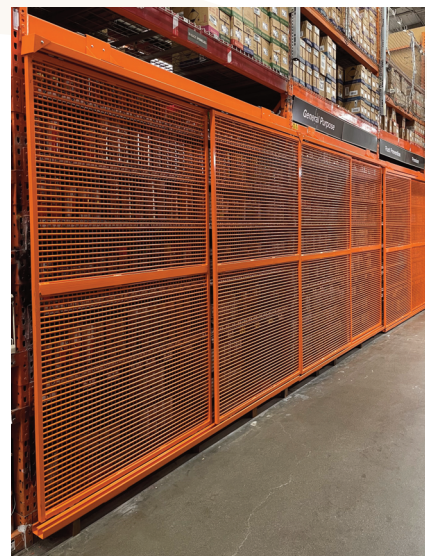

Applying ingenuity around the world.

Boston Group provides total solutions to energize environments, protect assets and support unique shopping or working experience. We listen carefully, look beyond the challenge and come up with smart solutions, exploring new domains every day together with you. From initial concept to full product rollout we expertly guide the process to deliver the right solutions for your needs.

MADE IN THE USA | VOCT 2024

SECURITY DOORS

- 3/16" steel wire grids.
 - Configurable on desired spacing.
 - Normal spacing is 2" on center.
- Frames and grids are Powder coated any desired color.
- Frames are made from 16GA cold rolled formed steel riveted as an assembly.
- Frames utilize smooth gliding steel roller assemblies each rated for supporting 50lbs each (100 total pounds per door).
 - Rollers are not powder coated.
- Locking clasps and brackets are available as desired.
- Outer door stops are part of the support frames to eliminate overtravel of doors when sliding.
- Top and bottom Unistrut support rails are durable and rugged to allow full structural support of doors to racking without flexing.
- Doors can be made in full height, half height or desired height as needed.
- Doors can be made as single bypassing, or multiple indexing as desired.

LOSS PREVENTION

Boston Group Security Systems for retailers provide several features and benefits that enhance safety, deter crime, and protect assets.

Here are some key features and benefits:

Features:

Robust Construction

- Made from durable and sustainable materials; steel, aluminum, and plexiglass.
- Optional multi-point locking systems for added security.

Impact Resistance

- Built to resist and deter forced entry attempts.

Visibility

- Incorporate clear or translucent materials for product visibility without compromising security.

Customization

- Can be tailored to fit specific sizes and aesthetic requirements.
- Options available for branding and matching store design standards.

Benefits:

Enhanced Security:

- Deters theft, vandalism, and unauthorized access.
- Protects valuable merchandise and store assets.

Safety for Staff and Customers:

- Provides a secure environment, reducing the risk of harm during criminal incidents.
- Peace of mind for employees and customers.

Loss Prevention:

- Reduces the risk of inventory shrinkage due to theft.
- Potentially lower insurance premiums due to improved security measures.

Compliance:

- Meets legal and insurance requirements for retail security.
- Adherence to fire and safety regulations.

Deterrence:

- Visible security measures discourage potential criminals from targeting the store.
- Enhanced reputation as a safe and secure retailer.

Operational Efficiency:

- Reduces the need for additional security personnel.
- Streamlines access for authorized personnel through advanced locking and access systems.

PROTECT

By investing in Boston Group security gates, retailers can significantly enhance their overall security posture, protect their investments, and provide a safer shopping experience for their customers.
