

Desks

Fully customizable based on customers needs

Boston Group's line of industrial and commercial grade desk and cabinet solutions offers durable and sustainable modules that easily adapt to meet the needs of any environment. Our team works closely with you to understand your specific needs and create your ideal solution. We accomplish this through the use of existing modules, custom designs, or a combination of both. All of these products are designed and manufactured at our facilities in the U.S. to insure the highest levels of quality, accuracy, and service. Boston Group's desk and cabinet systems can incorporate FastLane™ plug and play power systems to deliver fast and seamless integration.

Applying ingenuity around the world.

Boston Group provides total solutions to energize environments, protect assets and support unique shopping or working experience. We listen carefully, look beyond the challenge and come up with smart solutions, exploring new domains every day together with you. From initial concept to full product rollout we expertly guide the process to deliver the right solutions for your needs.

Design & Simulation

With cutting edge design and manufacturing capabilities Boston Group stays ahead with continuous investment in capabilities to deliver value driven solutions. Our advanced simulation and modeling software allow you to view your fixture design in isolation, as single unit or within the intended environment.

Production & Manufacturing

Boston Group employs fully automated manufacturing cells that punch, bend, form and laser-cut to exact specifications, bridging concept to product release.

Materials & Construction

- Sturdy 16GA cold rolled steel construction
- Ships to customer site partially assembled to speed site installation
- Heavy duty adjustable leveling feet accommodates uneven floors
- Our state of the art Powder Coating line provides the most durable finishes in hundreds of color options.
