

PowerTrack™ Pods

Overhead Rack/Bay, Light & Fan Clouds

Boston Retail's PowerTrack™ Pods are a versatile resource for attractively displaying ceiling light fixtures. They are constructed with PowerTrack™ and filler panels that fit easily overhead in warehouse racking. PowerTrack™ is the pre-fabricated, factory built core electrical component. PowerTrack's consistent high quality standards allow for speedy installation for multi-display and store roll-outs. Combine PowerTrack™ with a large choice of filler panels, fixture hangers, color and texture options to create a unique display that complements your merchandising scheme.

Applying ingenuity around the world.

Boston Group provides total solutions to energize environments, protect assets and support unique shopping or working experience. We listen carefully, look beyond the challenge and come up with smart solutions, exploring new domains every day together with you. From initial concept to full product rollout we expertly guide the process to deliver the right solutions for your needs.

PowerTrack™ Pods

Overhead Rack/Bay, Light & Fan Clouds

Features and Benefits

- 16 gauge steel frame construction.
- 12" and 18" on center receptacle spacing for maximum merchandising density.
- 120V, 20A rated assemblies.
- Over 150 powder coated color choices.
- Combine different filler panel options to blend with your merchandising scheme.
- Assembly options include up to 8 tracks.

Versatile for any Display Need

- Our Track Clouds are stick built. Meaning they can be made to whatever size you require by putting together the track and the various hardware parts.
- Boston Group can supply the support beam structure as well as the cable or you can use your own.
- The wiring for the PowerTrack™ is on top of the track. There is a wiring raceway.
- The track also has outlets spaced either 12" or 18" on center.
- Attach the light fixture or ceiling fan to our Fixture Hanger and that allows you to attach the light or fan anywhere along the track. The Fixture Hanger has a cord set attached. Plug the cord set into the outlet on the track and it's powered up.

Very Safe and Attractive

- Our PowerTrack™ system has no exposed wires.
- Using our Fixture Hangers is easy. You can then attach the light fixture or ceiling fan anywhere along the track.
- You can add items to dress up your track cloud such as a steel frame around the perimeter of the track cloud or use acrylic or steel panels in between the rows of track.
- You can also do an “open” look where you leave the space between the rows of track open.
- Boston Group has in house powder coating capabilities so we can offer our PowerTrack™ in a wide variety of colors. White, black and beige are the most popular.

An Organized Method of Displaying

Hanging Lights and Ceiling Fans

- Using our PowerTrack™ System keeps your merchandise displayed in a neat and organized fashion.
- As a result, you should realize more sales.
- Because of the flexibility of the system, you can space the rows of track as close or as far apart as required.
- With your lights and fans attached to our Fixture Hangers you have the flexibility to place the product anywhere along the track where you want it.

PowerTrack™ Pods
