

FastLane®

Total Store 'Plug&Play' System

Boston's FastLane® modular wiring products are cost-effective, 'Plug & Play', pre-terminated wiring solutions that distribute 20A power and CAT 5/6 telecommunications infrastructure wiring throughout your environment.

Applying ingenuity around the world.
Boston Group provides total solutions to energize environments, protect assets and support unique shopping or working experience. We listen carefully, look beyond the challenge and come up with smart solutions, exploring new domains every day together with you. From initial concept to full product rollout we expertly guide the process to deliver the right solutions for your needs.

FastLane®

Total Store 'Plug&Play' System

FastLane® wiring products are designed and configured to meet your needs in a pre-tested, modular installation.

The product arrives kitted, labeled and pre-tested allowing for fast and simple assembly. Saves significant on-site labor costs and meets all codes and standards.

The FastLane Advantage

- Shortens build and remodel cycles.
- Built-to spec and configured to your layout.
- UL listed and certified as components and as a system.
- Meets all National Electric codes (NEC) and requirements.

Eco-Features Long-Term Benefits

- Reduces on site material waste.
- Contributes to LEED certification.
- The US Green Building Council (USGBC) Innovation in Design category highlights 'Plug and Play' Office' as earning LEED points (credit 1.1-1.4 Innovation in Design category).

Long-Term Benefits

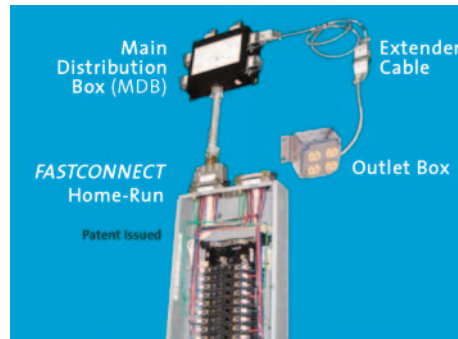

- Relocate & Reuse. System components can be disconnected and reused as needed.
- Built in future expandability.
- Longevity and reliability due to factory manufactured components.

Technical Specifications

Built to specification, pre-wired & pre-tested modular components. Configured for complete 'plug & play' installation. Designed for use and certified with all Boston PowerPoles™, PlugStrips and Gondola PowerStrips.

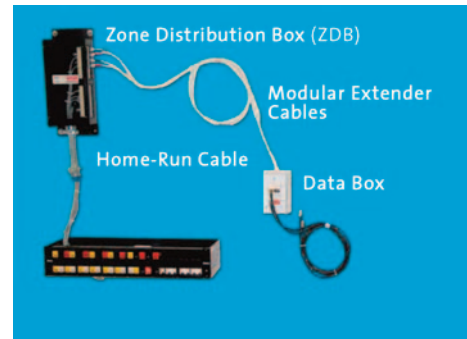

POWER

Power Distribution

- General Purpose (GP) and Isolated Ground (IG) power circuits.
- UL listed and approved for 20A 120V branch power circuits.
- UL listed and approved for 20A 277V lighting power circuits.

Voice/Data Distribution

- Cat 5, 5E and 6 approved components.
- Vendor neutral components.
- Color coded and labeled per spec.
